

Mt: Thalay Sagar(6904M)

Thalay Sagar stands as the second-highest pinnacle in the southern expanse of the Gangotri Glacier, nestled within the western Garhwal Himalayas. This formidable rocky peak boasts precipitous gradients on all facets, relentless winds, and renowned vertical precipices. The peak's unyielding nature is evident through multiple endeavors undertaken via 9 distinct routes, each characterized by rigorous approaches.

Notably recognized as a paramount expedition in India, Thalay Sagar attained its inaugural conquest through a successful ascent by an Anglo-American team. Their path navigated the northwest couloir and ridge, traversing the shale band of the northern countenance. The northern visage of the mountain offers an array of five distinct routes, albeit fraught with deteriorated and perilous rock surfaces. These challenges collectively establish Thalay Sagar as the epitome of mountaineering expeditions in India.
